Nakhon Si Thammarat, Thailand

Education

Walailak University
B.Sc. in Information Technology & Digital Innovation
2023 – Present (4th Year)

Nakhon Si Thammarat Technical College
From 2020 – To 2022

Yothin Bamrung School
From 2017 – To 2019

Tessaban Wat Sritawi School
From 2011 – To 2016

Languages

- Thai: Native
- English: Intermediate Communication

Training

Full-Stack Dev with Angular & NestJS
Walailak University • May–Jun 2025

Digital ASEAN & Bitkub Visit
Bangkok • 21–22 Nov 2024

Internship Experience

Medical Informatics Developer Intern — 20 Apr – 13 Nov 2026 (2 Semesters / 30 Weeks)
Medical Informatics Development • Bangkok Hospital Siriroj (BDMS Group), Phuket

- Collaborated with clinical staff (nurses, pharmacists, medical admin, and physical therapists) to design, develop, and deploy **6 hospital web applications** (4 Solo End-to-End systems & 2 Team systems).
- Engineered hospital workflows integrating with **iMed (HIS)**, **EDSCare (EHR)**, and **LINE Official Account** under strict PDPA data privacy compliance.

Projects (Healthcare & Full-Stack Systems)

1. Hospital Cost Estimation MVP (Solo) — github.com/trpxmac/cost-estimation-mvp

- Chemotherapy & medical supply cost estimator supporting 4 billing tiers (`OPD/IPD/OPDTR/IPDTR`), Item Set Folding, Offline LocalStorage auto-sync to PostgreSQL, and PDF quotation export.

2. Doctor Leave @ LINE OA (Solo) — github.com/trpxmac/doctor-leave-line

- Mobile doctor leave portal built with **React 19, LINE LIFF, Express 5 & Supabase** featuring real-time department quota checks, 1-on-1 Flex Message 1-Click Approval (100% PDPA), and Admin Portal.

3. iPad Document e-Sign Pipeline (Solo) — github.com/trpxmac/ipad-document-sign

- Pure Vector PDF e-signature station for iPad (Apple Pencil) bridging `iMed (HIS)` to `EDSCare (EHR)` with Python (`PyMuPDF`) text extraction, automated 80% deposit calculation, and overdue alerts.

4. Nurse Scheduling MVP (Solo) — github.com/trpxmac/nurse-scheduling-mvp

- AI-assisted monthly nurse roster & shift scheduler (`React 19, PostgreSQL`) featuring an ultra-compact 20-nurse ICU monthly grid, automated daily OT/hour calculations, and PDF reports.

5. BSI-Stock — Inventory & Barcode System (Team) — bsi-stock.vercel.app

- Co-developed hospital inventory & multi-size stock platform with `CODE128` barcode generation, mobile/webcam QR & barcode scanning, low-stock threshold alerts, and Excel export.

6. HeightGrowthApp / GrowthFit (Team) — github.com/FEEKNK/HeightGrowthApp

- Co-developed pediatric clinical fitness screening web app (ages 4–6 & 7–14) with automated BMI & age-norm evaluation and printable Thai PDF assessment reports with QR codes.

Skills

Programming Languages
JavaScript (ES6+), Python, SQL, HTML5, CSS3, JSX

Frontend Development
React 18/19, Vite, Tailwind CSS v4, Bootstrap, Chart.js, Recharts

Backend & Integrations
Node.js, Express.js 5, RESTful API, PyMuPDF, LINE LIFF & Messaging API

Databases & Tools
PostgreSQL, Supabase, MongoDB, MySQL, Vitest, Git, GitHub, Postman, Figma
